The information contained in this packet provides you with a brief introduction to who we are, what we do, and how **Innovant IT Solutions** can be value to you and your business. Our approach focuses on new way of business, thereby combining IT innovations and adoption while leveraging an organization's current assets. To accomplish this, we present an overview of our services, highlight our capabilities, and offer some brief examples of our experience.

The content is divided into following modules:

- Overview
- Ethics & Experience
- Available Services
- Contact Information

Because every client's project poses its own set of unique challenges, it is impossible to compose one document that completely addresses everyone's specific needs. What we have attempted to do in the following pages is simply provide a glimpse into some of our capabilities. As such, it's our business to quickly adapt to meet our clients' diverse needs... and we have a proven track record of doing just that.

We are always interested in exploring new projects, so if you're interested in discussing your particular development challenges with us. We are confident that our staff of experienced professionals can be a valuable addition to you.

Sincerely

Alok M C
CEO,
Innovant IT Solutions

Sincerely

Tejas T S
MD,
Innovant IT Solutions

1. OVERVIEW

Innovant IT Solutions is a software development, IT product sales & service and technical training firm based in Shivamogga since **2016**. We have extensive experience in many diverse areas of software development. Our approach focuses on new way of business, thereby combining IT innovations and adoption while leveraging an organization's current assets.

Our team is committed to provide services with:

- Quality
- Technology
- Innovation
- Support

1.1. QUALITY

Our main emphasis is to deliver best quality in every project we undertake. With our time tested business methodology, and structured solution building approach, we ensure to maintain our global business standards.

1.2. TECHNOLOGY

Technology leadership is the most successful strategy to challenge competitors and consolidate our position since business & technology work hand in hand. Our firm's belief in this synthesis has motivated & enabled us to deliver solutions with a decisive competitive advantage.

1.3. INNOVATION

In our each project, we emphasize on innovation. Our structured team works with a methodology and knowledge to innovate and deliver excellent services

1.4. SUPPORT

We are committed to provide software development and IT-support teams with the required infrastructure at a competitive rate from our State of the art development center.

2. ETHICS & EXPERIENCE

2.1 VALUES

We aim to be the best at what we do. Innovant IT Solutions is aspiring of evolving into a Global IT Company, ensuring that the solutions being delivered include best practice in I. T. with the chosen area of technology. We are proud to have built our organization on the strong pillars of integrity, honesty, and self-respect.

- We operate with complete focus to Maximize customer satisfaction.
- Develop and encourage an environment of mutual respect within company and extending it beyond to clients.
- Encourage commitment and personal learning of workforce.

2.2 MISSION

To produce excellent services in the field of IT services with maximum efforts driven towards customer satisfaction.

2.3 VISION

To build upon the reputation of being one of the most innovative IT solution & service provider. We believe in doing our work in the most efficient way with robust and structured methodology, with gradual evolution from hard-work to smart-work culture.

2.4 EXPERIENCE

Being a software development, IT service & technical training firm, we have amassed an impressive resume of projects. It's the custom nature of our development projects that has enabled **Innovant IT Solutions** to acquire vast experience in many diverse areas of software development. Our experience, in conjunction with our quality personnel, enables us to be dynamic enough to tackle almost any IT project.

3. AVAILABLE SERVICES

Innovant IT Solutions provides its clients with a wide range of services spanning the entire development process. Clients can utilize our firm for the entire development cycle or only for selected portions that require additional support and consultation.

Our strength lies in understanding the client's business processes, culture, vision and goals across the industry segments and offering client oriented solutions which are highly reliable, creating customer comfort.

Our Services Include:

- IT Services
- Education / Training

3.1. IT SERVICES

IT has high potential in terms of employment and revenue generation. The IT manufacturing sector is growing at an average rate of 28-30% annually over the past decade. Software industry continues to contribute a major portion of Indian IT industry's revenues.

With the dedicated employees at Innovant IT Solutions, it has been adept in assisting the growth of the nation in the field of Information Technology. IITS with its vision of quality and innovation has been successful in catering the needs of those who seek our assistance.

IT enabled services:

1. Software Solutions
2. Web Solutions
3. Networking Solutions
4. Application Maintenance & Support
5. Security System
6. Sales and services of IT products

Software Solutions

Innovant IT Solutions has developed a number of products and applications for its clients in this service. Our mature software development processes, combined with excellent infrastructure have significantly increased the “on-time and on-budget” delivery of software. Our services begin from designing, development, testing and implementation to maintenance.

We offer the following Application Developments:

- Interactive Application Development
- Custom Application Development/ Maintenance

Interactive Application Development

Interactive Application Development (IAD) is about harmonizing art with technology. This division of Innovant IT Solution complements the client's requirement of online and desktop applications. A strong team of software professionals empowers the application development capability at IAD.

Custom Application Development/ Maintenance

It is a well-known fact that some of the ready-made, packaged applications have failed to meet the requirements of the customers because of their unique needs and differing business practices and processes. We have experienced I.T. Consultants for Project analysis, formulation and concept planning, right up to project management and installation. We develop customized software that is completely based on user’s requirement with Graphical User Interface (GUI).

3.2 Web solutions

Innovant IT Solutions provides web solutions & services to help customer reach to a wider customer base. The web is a new and different medium for communication and requires a different viewpoint and skill set to use it in the most effective way. You need web consulting to get more return on your investment in your web site. We can help you get the most effective solution through the following aspects:

- Website Development
- Web Promotion
- Web hosting
- E-commerce

Website Development

Websites can enhance awareness of your brand, leading to more sales. Build relationships with customers, vendors, and shareholders through your online identity get more traffic from the search engines, fast loading web pages with excellent navigation & designing.

Either you are looking for Dynamic or static web application, we can help you acquire both. We make your presence live on web.

Web Promotion

Web Promotion is a two phase process and we are your companion to see you through both the phases and that too very well. We get your site listed at the most popular Internet directories because they can send you substantial amounts of traffic and affect your ranking in various search engines like Google, Yahoo, etc.

Email marketing is a great way to promote your electronic Shop to buyers including those who are interested in your shop but have not purchased items from you in the past.

Web hosting

We provide service to host your own website, and users with online systems for storing information, images, video, or other content accessible via the World Wide Web. We also offer custom web hosting as per your requirements. File Hosting Service: Host your static content, typically large files that are not web pages.

E-commerce

We offer e-commerce services in custom-built solutions as well as packaged software customizations and implementations. This helps customers to heave their business from point of sale implementation and go global.

3.3 Networking Solutions

We offer following the networking services:

- Preparation of Network Architecture (Network protocol, Backbone at twisted wire, cable or optical fiber, Net topology, Hub/Switches etc.).
- LAN/ WAN set-up.
- Network Administration.

3.4 APPLICATION MAINTENANCE & SUPPORT

We have experience in executing maintenance projects. Our team of experienced consultants has been successfully managing maintenance projects of our clients. The quality of product deployment, training & support has everything to do with customer success & satisfaction. We offer annual maintenance plans which are tailor-made as per the client's requirement.

If required we depute technical team which works at the client site for the system execution or support as per requirement. We provide complete offsite telephone support in the form of consultations, assistance and advice on the use and maintenance of the Software.

3.5 SECURITY SYSTEMS

We here at Innovant It Solutions apart from all other IT solutions offer security systems to our clients. Security systems include installation and maintenance of Closed Circuit Television Camera's (CCTV's) for official and personal usage of customers. CCTV's are available in various specifications as well as range on the requirement basis of the clients/customers. Some of them are: CC Cams, Bullet Camera, Dum Camera and IP Camera.

3.6 Sales and services of IT products

We offer sales and services of various IT products, which includes Personal Computers (PCs), laptops, computer-peripherals such as processors, motherboards, mouse, keyboards, SSDs, hard-disks(both internal and external), graphic cards, speakers, pen drives, various types of printers(inkjet, laser-jet, all-in-one) etc.

4. EDUCATION / TRAINING

The educational division of Innovant IT Solutions provides quality education in various fields of IT. In an age of cutthroat competition, college education is not enough. To have an edge over your counterparts, you need to have something EXTRA. That additional bit is provided by us. We have highly qualified, capable & experienced team of faculty comprising of professionals & technical experts. Individual attention is provided to students and equal emphasis is given to both theory and practical.

The mission of our educational division is to provide quality education in the various fields of information technology for people of all walks of life.

4.1 Courses Offered at IITS

Top Job Oriented Courses:

- Full stack Development Using Python
